Do you want to hear better?

So discreet you can hardly see it!

Do you find it difficult to understand conversations in noisy situations?
Do people seem to mumble when they speak to you?
Have you looked at other hearing solutions but were shocked by the price?
Do you really think a $20 amplifier will help you hear better?

There is an answer.

The Personal Sound Amplifier from Acoustic Research

A bridge to better hearing without spending thousands of dollars.

- ✓ Made from hearing aid components, but at a fraction of the cost.
- ✓ No doctor or audiologist visit required.
- ✓ Simple and easy to use.
- ✓ Offers multi-programs and noise reduction.
- ✓ Multiple volume settings for more options in different environments.
- ✓ 15-hour continuous use rechargeable battery: no need to hassle with replacing.

Fully rechargeable
